Title: Optimal Power Systems Planning for IEEE-14 Bus Test System Application

Diaa Salman

Diaa Salman: A Ph.D. Candidate at Cyprus International University, Cyprus, in the electrical and electronic engineering department. Received his bachelor's degree from An-Najah National University, Palestine, in electrical engineering, Master's degree from Eastern Mediterranean University, Cyprus, in electrical and electronic engineering. Research interests; power systems planning and control, renewable energy, optimization, and machine learning.
