

Paper ID : 180-Surge Voltage Suppression Using Power Device Embedded Module for Half-bridge DC-DC Converter

Authors: Jizhe Wang

Jizhe Wang received the B.S. and Ph.D. degree in electrical engineering from Nagasaki University, Nagasaki, Japan, in 2015 and 2020, respectively.

In April 2020, he joined the Nagasaki Institute of Applied Science (NiAS), and he is currently an Associate Professor at the Institute for Innovative Science and Technology. His research interests include power factor correction converters, dc–dc converters, and their digital control methods.
